

## AFRA Committees

### **BMP Development Committee**

This committee takes the lead in reviewing the AFRA Best Management Practice for Management of Used Aircraft Parts and Assemblies and for Recycling of Aircraft Materials (BMP) document.

#### **Main project(s):**

- Coordinating member feedback to review and revise AFRA's BMP manual

### **Communications Committee**

This committee works on various projects, including fine-tuning our membership recruitment messaging, contributing photos and content to industry magazine articles, and guiding staff with conference programming selections.

#### **Main project(s):**

- Contributing content for press releases, industry publications, and AFRA platforms
- Providing feedback with conference topics and speakers
- Coordinating media partnerships to provide benefits to members (cross-promotion of industry events)

### **Government Affairs Committee**

This committee works to better address the policy developments and regulatory issues that impact the aircraft recycling and dismantling industry, and to proactively promote the AFRA Best Management Practices guide. This program is guided by a professional government affairs consultant, with collaboration and participation from the Government Affairs Committee members and AFRA staff.

#### **Main project(s):**

- Focused engagement in EU government affairs
- Tracking relevant updates and legislation in US, EU, and Canada
- Engagement with allied industry organizations ICAO, IATA, etc.

### **Research & Development Committee**

This committee is in the process of developing a network of AFRA research partners as well as developing its research objectives.

#### **Main project(s):**

- Building Research Network of research universities
- Building a library of research papers as a resource for AFRA members – these are posted on the members page of AFRA's website
- Starting research project(s) and is in process of collecting proposals from Research Network organizations
- Engagement with allied industry organizations, Remanufacturing Industries Council (RIC), REMADE Institute, etc.
